

FAIR WINDS MAKE FAIR SAILING, And Fair Dealing Makes Customers Retain Them

Before You Part With a Dollar

A TIMELY WARNING.

This is the season of the year when we may have cold nights and mornings. It is the season of the year when every one should be careful and wear suitable clothing to protect them from the sudden changes of the weather. We would suggest a **FALL OVERCOAT** for the cool mornings and evenings. You are not safe without one. If you are not supplied with that necessary garment, the proper thing for you to do would be to come and look at the large stock we have now open for inspection. If you want a **MEDIUM-PRICED OVERCOAT**, you will be surprised at the **STYLISH OVERCOATS** we can show you for \$8, and the elegant styles we are showing at \$10, \$12, \$15, \$18, and \$20 are as fine trimmed and made garments as can be produced by any merchant tailor in the city, and the prices one third to one half less.

OUR MEN'S CLOTHING

is ready, too. Of course this is the leading branch of our business; it is the one that first gave us prominence in Richmond; it is the one by which we gained our reputation for selling better goods for less money than had been customary in this city. We still have that reputation, and propose this fall to still further deserve it. Each year's experience in manufacturing **CLOTHING** for the Richmond trade enables us to profit by former errors and correct previous mistakes. This season our **READY-MADE CLOTHING** for men is as near perfection as good judgment, good taste, good goods, and good workmanship can hope to make it. The **ALL-WOOL SUITS** that we are showing at \$10, \$12, and \$15 are usually made to measure for \$20, \$22, and \$24; the suits that we offer at \$18, \$20, and \$25 are really custom-made, for they were cut by custom cutters and made by custom tailors during the dull season; and what's best of all, our price is \$10 or \$15 less than so-called merchant tailors will charge.

Boys' Suits.

As usual, we excel in this department, both in quantity, variety of styles, and lowness in price. Beginning with a **ROUGH-AND-READY PLAY SUIT** at \$1.25, the prices gradually go to \$15 for the finest imported **WORSTEDS, TRICOTTS, &c.** The range of styles includes **PLEATED** and **PLAIN JACKETS** and **SWEATERS** up to fourteen years. At \$5 we show fifteen different styles. This being a popular price, we have selected the very best possible things for the money, and they will be found to compare with higher-priced suits, either in make, quality, and style. Our display of one- and two-piece **KILT SUITS** is greater than ever.

see what inducements we can offer you to purchase here. Our stock is immense. We make a bold break for your patronage on this, the last day of the year, and we have marked the smallest possible percentage on everything to cash and the bulk of the trade. On the one item of **UNDERCLOTHING** alone you will make a mistake if you buy before seeing us.

ANY ARTICLE OF MERCHANDISE BOUGHT OF US NOT FULLY RETURNED. THIS POLICY AND PRIVILEGE REMOVES THE GET HOME; HENCE OUR PATRONS BUY

THE STRICTLY ONE-PRICE MEN'S OUTFITTERS.

Utter Impossibility

OR MAY BE RETURNED.

OUR LOCAL AFFAIRS.

SOME POLITICAL POINTS.

A Hint to Registrars About Persons Moving in the City—Personal, &c.

Attention of registrars is called to the following provision of law:

The Common Council or Board of Trustees of each city and town having more than five thousand inhabitants shall appoint for each ward as many voting-places or precincts as they may deem necessary, and shall prescribe and cause to be published the boundaries of such voting-places or precincts, and no voter shall cast his ballot save at the voting-place of the precinct wherein he lives: provided, however, that every person offering to vote shall have been a resident of the ward in which he offers to vote for thirty days next preceding any election, and he offers to vote: provided, that when any voter removes from one ward to another within thirty days of an election it shall be lawful for him to vote in the ward from which he removed until he has acquired the right to vote in the ward to which he removed: provided that in case of the lawful change or rearrangement of wards it shall be the duty of the registrar of each ward to transfer at once, and without application, every voter in the ward in which he is placed or thrown by such change or rearrangement of wards, and therefor such voter shall vote in the ward into which he is so placed or thrown without having resided therein thirty days.

PERSONAL.

The present residence of Mr. S. R. Perkins, registrar for the Third precinct of the city, is 2202 Main street; place of business, 2201 Main street.

Mr. E. M. Crump, registrar for the Fourth precinct of Clay Ward, now resides at 1029 West Grace. Voting-place will hereafter be 1200 West Main, Martin Oster's.

CLAY-WARD ACTIVITIES.

The officers and members of this efficient and energetic Democratic club are doing good and laborious work, which will result not only in bringing out the largest vote ever polled in the ward. They have canvassed now in each precinct, who are going from house to house, listing every voter. When this is completed, which will be in a few days, the work of registering and transferring all new voters will be diligently and earnestly pushed. Their place of meeting, No. 609 West Main street, and they have also opened a room at No. 113 West Broad street, where all needed information relative to transfers and registration can be obtained.

The citizens of the ward should appreciate the zeal and efforts of the members of this club, and aid and assist them in every way possible.

A conference-meeting of the Finance and Executive Committees of the club will be held at No. 113 West Broad street to-night at 8 o'clock.

MADISON-WARD DEMOCRATIC CLUB.

This club have procured headquarters in the Hanewinkel building, corner of Ninth and Main streets, Rooms 1 and 4; entrance on Ninth street. Their regular meeting will be held on each Monday night between the 11th and 12th of the month, where they will be regularly open for business in a few days. A banner will be hung out and a transparency put in front of the door. They have now perfected their organization and will go to work in earnest, taking cognizance of all political matters relating to the ward.

TUCKAHOE DEMOCRATIC CLUB.

The Tuckahoe Democratic Club, of Henrico, will meet at Shoemaker's Store (voting precinct instead of Anderson's Store) on Monday night, 12th inst., at 8 o'clock. A comfortable room having been secured from Mr. James Phillips, at this place, for the use of the club, all Democratic voters of the precinct are earnestly invited to unite with them.

A COLLECTION.

The following was issued yesterday:

COMMONWEALTH OF VIRGINIA,
OFFICE OF SECRETARY
OF THE COMMONWEALTH,
RICHMOND, October 10, 1885.

The attention of registrars, judges of election, and other officers is called to the act approved November 29, 1884, heretofore printed, as affecting paragraph 9, page 20 of "Extracts from the Election Laws," &c., compiled and recently sent from this office.

H. W. FLOURENCE,
Secretary of the Commonwealth.

Chapter 115—An Act to Amend Section 11 of Chapter 7 of the Code of 1873, in regard to Registration of Voters.

1. Whenever a registered voter changes his place of residence from one voting-precinct to another, it shall be lawful for him to apply to the registrar of the ward in which he has resided for a certificate that he was duly registered, and that he has taken the oath of qualification, and that he is entitled to vote in the precinct to which he has moved, and the name of every such person shall be entered upon the register.

2. Whenever a registered voter changes his place of residence from one voting-precinct to another, it shall be lawful for him to apply to the registrar of the ward in which he has resided for a certificate that he was duly registered, and that he has taken the oath of qualification, and that he is entitled to vote in the precinct to which he has moved, and the name of every such person shall be entered upon the register.

3. Whenever a registered voter changes his place of residence from one voting-precinct to another, it shall be lawful for him to apply to the registrar of the ward in which he has resided for a certificate that he was duly registered, and that he has taken the oath of qualification, and that he is entitled to vote in the precinct to which he has moved, and the name of every such person shall be entered upon the register.

4. Whenever a registered voter changes his place of residence from one voting-precinct to another, it shall be lawful for him to apply to the registrar of the ward in which he has resided for a certificate that he was duly registered, and that he has taken the oath of qualification, and that he is entitled to vote in the precinct to which he has moved, and the name of every such person shall be entered upon the register.

THE Y. M. C. A. HALL.

Location—corner of the voting-place to which he has moved, and the name of every such person shall be entered upon the register.

THE Y. M. C. A. HALL.

The proposed Y. M. C. A. building will be about sixty feet on Main street by 112 feet on Sixth street. The entrance is to be at the west or highest end of the front on Main street. The material of the exterior is to be of Richmond granite, in large blocks with rough quarry faces, to the level of the second and third stories, and above these it will be of brick laid in red mortar, with courses of dressed stone at sills and heads of windows—most of the decoration being confined to wide bands or friezes of terra cotta.

The first-floor windows will consist of a series of semi-circular arches ten and a half feet in width, while the windows of the second and third stories will follow each other closely between bands of stone-work. This series of windows is interrupted at the corner in order to give solidity to the wall immediately beneath the tower. The main roof of the building has its ridge running parallel to Sixth street, and is of such a slope as to show an imposing gable on Main street.

The tower on Main street is a massive tower, which, beginning in a square, and with two of its walls flush with those of the building, merges, through an original system of corbelling, into a circular drum. This is pierced with small windows and surmounted by a conical roof.

The Sixth-street front shows the same system of fenestration as the end, and the ornament is so arranged as to insure a thoroughly consistent design. The architecture is to the fullest extent free, yet based chiefly on motives derived from the vigorous styles prevailing in Southern France and Northern Italy during the eleventh and twelfth centuries. Its prototypes, if it can be said to have any, are to be found among the grand old markets of town halls of Lombardy, as well as with the massive churches of Auvergne. In this sense the style may be roughly classed as Romanesque. The tower, as the culminating point, is free in treatment, partaking to some extent of the untrammelled spirit of the fifteenth century.

The essential motive which binds these elements together is the marked horizontal treatment throughout, which tends to give the entire edifice an appearance of solidity and repose too often lacking in our modern American architecture.

THE SHOCKS OF EARTHQUAKE.

One or More of Them Fell Here Night Before Last.

The earthquake noticed in the Dispatch yesterday morning as having been felt the night before about 11:30 or 11:35 in Louisa and Lynchburg was also felt in Richmond. In the residence of a prominent citizen, where there was perfect quiet, two shocks, seeming to come from the southeast, were very distinct about 11:30.

A lady living in the northern part of the city was so scared that she roused her children and got them out of bed and dressed them for flight. Nearly everywhere the approach of the earthquake was signaled by a rumbling, rolling sound like that made by a street-wagon. Windows were rattled and chandeliers swung to and fro. The sickly sensation which came upon many December 22, 1875, was again experienced, though in a less degree. Hundreds of others, however, who were not elsewhere the approach of the earthquake was signaled by a rumbling, rolling sound like that made by a street-wagon. Windows were rattled and chandeliers swung to and fro. The sickly sensation which came upon many December 22, 1875, was again experienced, though in a less degree. Hundreds of others, however, who were not elsewhere the approach of the earthquake was signaled by a rumbling, rolling sound like that made by a street-wagon.
